# Duet™

Duet is a high-density stacking chair with versatility and poise.

6620 Armchair polypropylene seat and back.

6621 Armless chair polypropylene seat and back.

Duet features a ½ inch diameter, chrome plated, solid steel frame that incorporates a built-in wall saver feature. Duet can be stacked and stored up to 40 high on an optional mobile dolly. Side chairs can stack up to 12 high when free standing on the floor.

Duet's unique, integrated ganging feature on selected models makes it fast and easy to set out in straight rows that stay connected. A hand grip on the chair back also makes it easy to move and hold when stacking. Non-marking glides won't mark most floors.

# Duet™

Easy to connect, quick to stack and simple to store.

6621 Armless chair polypropylene seat and back.

The waterfall seat and back are made from a durable polymer that is easy to clean and Greenguard certified so it will not negatively impact indoor air quality. Every Duet chair comes with Global's Lifetime Warranty.
