Wind™

Wind, a modern classic lounge series with a timeless look.

Classic, contemporary and refined are the words most often used to describe the Wind Lounge Seating series. The simple geometry and slim proportions create a relaxed and open atmosphere even when space is at a premium. Wind Lounge Tables complement the

seating series. Matching chrome legs support slim profile tops in square or round configurations. MDF table tops are available with powder-coated epoxy finishes that feature a reverse waterfall edge or in any standard Global laminate finish with square, self-edge detail.

Wind™

Wind Linear is an extension to our very popular Wind freestanding soft seating series of sofas and arm chairs. Wind Linear sofas are available in two widths, with and without arms, single arm sofas and benches. The seating is connected with the new letter box tables to

create the linear arrangements that define the latest trend in office and hospitality lounge environments. Connecting inside corner tables are also available to create a variety of popular 'U' shaped layouts. It's a great new look that brings people together in style.
