AVANTI™

1946-2 Executive Back Synchro Knee Tilter Shown in Allante, Medium Beige

1946-2 Executive Back Synchro Knee Tilter – Back View

Avanti is high function computer-oriented seating with a focus on effective ergonomics. It's clean smooth flowing lines and elegant details provide exceptional comfort and effective, long lasting ergonomic support. We are confident that Avanti will exceed all expectations and be well received by the design and ergonomics communities.

Headrest is height and angle adjustable to suit users' size and preference.

Arms are height adjustable to allow users' to modify the support to suit their requirements. The arms can be relocated up to 1.5" wider.

BREATHABLE BACK SUPPORT SYSTEM

1947-2 High Back Synchro Knee Tilter Shown in Allante, Medium Beige

1947-2 High Back Synchro Knee Tilter – Back View

Armcaps are made from soft, durable self-skinned urethane (SSU), which are warm to the touch.

Breathable elasticized mesh back provides excellent ventilation and comfortable support.

Lumbar support is height adjustable to allow users' to fit the chair to their individual requirements.

Tungsten finish on base and frame is standard and coordinates with the tungsten finish used extensively on many other Global products.

AVANTI™

1946-2 Executive Back Synchro Knee-Tilter

Avanti is the ultimate seating experience for hours of working comfort. The flexible back structure features elasticized mesh stretched over the frame and is augmented with an adjustable lumbar area. The combination is a unique support system that provides hours of dynamic back comfort for intense computer applications. The smooth knee-tilting action is synchronized so

that the back of the chair tilts twice as fast as the seat. While a full range of movement is provided, pressure on the back of the thigh is reduced and the users' feet stay flat on the floor. Thus, blood circulation is not restricted to the lower extremities and the resulting potential problems of cold feet, fatigue, and lower productivity are reduced or eliminated.

* Front Cover – Shown in Momentum, Knack-Teak
