

OLYMPUS®

Ideal for Recording Meetings/Interviews

Lapel Mic Included

Capture high quality sound with the WS-801Gm.

The WS-801Gm features two internal directional condenser microphones engineered to capture sound at a wide range of decibel levels.

With 2GB of internal memory and 514 hours of recording time, you'll be able to capture notes, lectures, and more – and still have room to store documents. The device also features a micro SD slot with the potential to hold up to 32GB of additional memory per card.

Direct USB connection, Calendar Search function, and plenty of memory, makes the WS-801Gm the ultimate recording device.

Features

- Built-in 2GB Flash Memory (more than 514 hours of recording time)
- Micro SD slot holds up to 32GB of additional memory per card
- Includes external lapel mic.
- Records and plays back in MP3 and WMA stereo formats
- Voice activated recording for hands free use
- 200 files in each of 5 folders for organization of recorded files
- Set up to 99 index marks per file
- Noise Cancellation dampens or minimizes unwanted background sounds – so you record a clean, high-quality audio file
- Calendar Search Function allows you to easily search for files by date and play them back
- Scene Select Function— the microphones will automatically adjust to capture the best sound depending on your setting
- Multiple language LCD display (English, French, Spanish, Portuguese)
- Built-in stereo microphone
- Microphone jack— 3.5mm
- Earphone jack— 3.5mm
- Up to 27 hours of recording capability

With the "USB Direct" design, it is easy to transfer your files over to your Mac or PC. Just plug the recorder right into your computer for fast downloads – no cables needed
