- Label widths from 3.5 mm (9/64") to 18 mm (3/4").
- **Laminated tapes** for better longevity.

AC adapter included.

92 built-in symbols.

Various bar codes available.

PT-2100 Electronic Labelling System

A better way to get organized.

A Flexible, PC-connectable office labelling system

The PT-2100 offers a sleek, professional design to optimize your labelling experience from beginning to end. The PT-2100 has all the features you need in one powerful package. The labeller can easily be operated on its own or with a USB cable connection to your PC.

Professional-looking labels

This featured packed model has a 16-character x 3-line LCD for easy viewing. The PT-2100 prints up to 5 lines, 4 fonts, 8 type sizes and 10 type styles. You also have the option of selecting from over 90 symbols and 15 frame styles to give your labels a professional look.

The PT-2100 allows you to store up to 10 labels with the use of Built-in memory for easy printing. The PT-2100 PC connectable labeling system will help you create labels smarter, faster and more efficiently!

A wide variety of colours and widths

With a vast selection of sizes and colours to choose from, getting organized has never been so easy. Brother's laminated tapes (TZ tapes) consist of six layers of materials, resulting in thin yet extremely strong, labels. Characters formed with thermal transfer ink are actually printed on the underside of a laminate.

Sandwiched between two layers of PET (polyethylene) film, the characters are virtually indestructible. Information on our variety of TZ tapes' colours and sizes is available on our web site.

Service and support are part of the package

We are dedicated to comprehensive service and support. We provide a 1 year limited parts / 90 days labour warranty backed by our nationwide network of authorized customer-care centres. We also provide machine lifetime toll-free technical support.
