

Commercial Shredder

Eliminates paper jams and powers through tough jobs

Automatic Oiling
Lubricates the cutters automatically to enhance performance

Energy Saving
Reduces energy consumption by up to 70%*

Advanced Safety
Stops shredding when hands touch
the paper opening

A large, black, heavy-duty paper shredder with a control panel on the top right and a handle on the front. The shredder is designed for high-volume office use, featuring a wide paper input slot and a sturdy, boxy construction. It has a black finish with silver-colored trim along the top and sides. The front panel includes a vertical handle and a small control panel with a digital display and several buttons. The shredder is mounted on four casters for mobility.

*Compared to conventional commercial shredders during normal usage
