MACHINES & ACCESSORIES

*Swingline* GBC<sup>®</sup> **SIMPLY BOUND** FOR SUCCESS

# Present With Polish

Binding gives your documents a finished look worthy of presentation.

## Bind to present, Bind to organize

Bound documents are easy to create right from your desktop. Both electric and manual binding machines securely bind sheets together to form a neat, complete document booklet. Choose covers and spines to match your needs and style.

## Make your ideas stand out

Show you mean business at your next meeting by binding reports and proposals. Binding increases the value of your work, and instantly makes presentation look more professional than staples or paper-clipped materials.

Bound presentations are more likely to be read, and they help communicate ideas more effectively by:

### Showing your unique style

The most memorable presentations have personality

### Keeping you organized

Loose pages stay secure for a flawless presentation

### Protecting your documents

Important papers are safe from everyday wear and tear

## ELECTRIC BINDING

Save time and energy, plus benefit from accurate punching and quick binding with an electric binding machine. Ideal for offices with frequent binding needs, these machines offer virtually effortless operation, doing most of the work for you in a fraction of the time.

## ALL-METAL CONSTRUCTION

Perfect for large office and high volume use, a number of our machines feature all-metal construction making them durable for frequent use in even the busiest of environments.

## LOW FORCE

Our low force machines feature convenient ergonomic handles to increase manual punch and binding comfort. Low force punching makes preparing your documents easier than ever.

## QUICKSTEP™

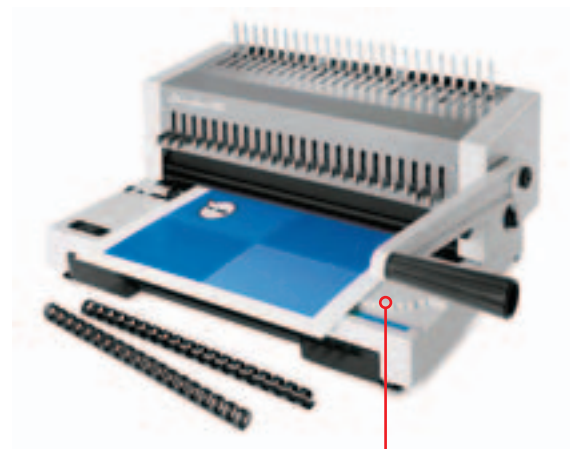

Our patented QuickStep™ Workflow System guides users through the binding process using colour coding and images to achieve perfect results every time.
