

PRODUCT FOCUS

We're all about Volume.

44321-00

Destroyit® business shredders by IDEAL.MBM are specially designed for high volume shredding in fast-paced, corporate environments. Designed and built in Germany, they are engineered to withstand years of heavy office use (the hardened steel cutting shafts are guaranteed for life). Fast, quiet and efficient, they are the first line of defence against data and identity theft. And, unlike shredding services, they won't shred your bottom line.
