

# APC Back-UPS BE750G

## Energy Saving protection your home or home office computer systems

The BE750G has green features designed to reduce wasted electricity by using a control outlet which will shut off power to other outlets on the unit if that host device is deemed asleep. You can save up to \$40 per year on your electricity bill when this feature turns off power supplied to your peripherals like a printer, scanner, fax or external speakers when it determines that you are not using your computer. The Back-UPS BE750G **Protects** you from all power problems. **Eliminates** interruptions due to power problems. **Preserves** valuable data on your hard drive. Provides maximum availability for VoIP service.

## Product Features:

- 5 "Battery Backup & Surge Protection" outlets keep CPU, monitor and other critical devices running when the power goes out.
- 5 "Surge Only" outlets protect printers, fax machines or other equipment without reducing battery capacity.
- Master/Controlled Outlets will save up to \$40 per year in energy costs.
- Telephone, Network and Cable protection guards against power surges traveling on network lines lines.
- Push button circuit breaker enables quick recovery from overloads.
- Both USB and serial connectivity allow management of the UPS via your computer.
- 3 yr warranty and a \$75,000 Equipment Protection Policy ensure peace of mind.
