

Plasmacluster™

Bacteria, germs, mold spores, pollen, pet dander, smoke, dust and odors can make breathing more difficult. Sharp Plasmacluster™ Air Purifier helps remove these irritants from the air that passes through it with an ultra quiet fan that draws air through a three-stage filter system. Plus the revolutionary Plasmacluster™ Ion Technology actively refreshes the air. The FP-P30U is ideal for a living room, family room, study or bedroom, and is a smart way to choose cleaner, healthier, more breathable air.

Features

Washable Pre-Filter traps dust, dirt and other airborne particles from the air that passes through it.

Active Carbon Filter removes many common household odors.

True HEPA Filter captures 99.97% of particles as small as 0.3 microns from the air that passes through it, including pollen, mold, pet dander and dust.

Plasmacluster™ Technology splits water molecules into positively and negatively charged ions which spread throughout the room. This system effectively refreshes the air similar to the way nature cleans the environment near waterfalls or just after a thunderstorm.

Manual Operation lets the user choose among 3 fan speeds.

Library Quiet™ operation is ideal for bedrooms and living rooms. Silent Mode is as quiet as 22 decibels, about the volume of rustling leaves. These are among the quietest Air Purifiers with a HEPA filter available anywhere.

Energy Efficient operation means they're easy on the wallet. All Plasmacluster models are 35% more energy-efficient than standard models, making them ENERGY STAR® qualified. They can operate all the time, saving money as they improve the quality of the air.

Ultra Long Life HEPA Filters require changing only once every two years* so operating costs are low.

Stylish Design looks great in any room of the home or office.

Features & Specifications

Model Number	FP-P30U
Air Purification System	Plasmacluster™ and Fan
Plasmacluster™ Ion Mode	Yes
Plasmacluster™ Indicator Light	Yes
Micron Mesh Pre-Filter	Yes (Washable)
Active Carbon Filter	Yes (Replaceable, lasts up to 2 years)
True HEPA Filter	Yes (Replaceable, lasts up to 2 years)
Manual Operation	Yes
Fan Speeds	3 (Max/Med/Silent)
Voltage / Frequency	120V / 60Hz
Recommended Room Size	124 sq.ft. (approx. 10' x 12')
CADR (Clean Air Delivery Rate) (cubic feet of air cleaned per minute)	Dust 92 / Smoke 80 / Pollen 130
Air Flow Levels: Max/Med/Silent (cubic feet per minute)	106 / 74 / 35
Noise Levels: Max/Med/Silent (DbA)	44 / 37 / 22
Unit Dimensions (w x h x d) (mm)	TBD
Unit Weight (kgs)	5
Limited Warranty* ² 1 year	1 year parts and labour
Safety Standard	UL / cUL Listed
ENERGY STAR Qualified* ³	Yes
UPC	074000662971
